### **Technical Information Sheet - Akemi Stone Cleaner**

**Characteristics:** Akemi Stone Cleaner is an acid-free, highly concentrated cleaner made of non-ionic surfactants, auxiliary materials, odoriferous substances and solvents. The product is free from phosphates and bases; the surfactants contained are biodegradable in correspondence with the legal regulations for surfactants.

**Field of Application:** Akemi Stone Cleaner is suited for a rapid and thorough removal of building material, wax, and self-brilliant layers, thin concrete layers, oil and fat, soot, rubber and tar spots as well as residuals of synthetic colors and synthetic plastering on all natural and cast stone, e.g. marble, granite, travertine, slate, bricks and cotto slabs, tiles, fair-faced concrete and similar materials.

**Instructions for use:**

1. Dilute with water in the ratio of 1:1 to 1:50 and apply to stone surface.
2. Allow the cleaner to work for 10-20 minutes.
3. For deeper staining scrub with a brush or nylon pad.
4. Rinse thoroughly with water.

**Special Hints:**

- Do not apply on synthetic materials which are not resistant to solvents or rubber. If in doubt, test on an inconspicuous area.
- The product is registered at the Federal Environment Protection Agency under the number 1257 0010.
- For adequate waste disposal container must be completely empty.

**Safety Measures:** see EC Safety Data Sheet

<b>Technical Data:</b>	Coverage:	approx. 10-20 m <sup>2</sup> /liter (if applied purely)
	Color:	colorless to yellow
	Density:	approx. 1.01 g/cm <sup>3</sup>
	pH-value:	approx. 10 (if concentrated)
	Shelf life:	3 years approx. if stores in cool place free from frost in its tightly closed original container.

**Notice:** The above information is based on the latest stage of technical progress. It is to be considered as a non-binding hint and does not release the use from a performance test, since application, processing and environmental influences are beyond our realm of control.
