TECHNICAL SHEET

Name of the product: "TOP" POLISH RESTORER

Description:

Water-based wax in paste form for indoor and outdoor, suitable for the polishing of marble, granite, natural stones; its revolutionary formula gives results that were previously possible only using solvents. It closes all the small cracks and pores, gives an exceptional, water-resistant long-lasting sheen similar to the natural aspect of the material. TOP is ideal for restoring polish on tables, tops, windowsills, walls.

Composition

Anionic emulsion of acid and synthetic waxes.

Technical data:

Physical state	paste
Color	whitish
Odor	characteristic perfume
Specific gravity at 20°C	1,1±0,02
Hydrosolubility	soluble at every ratio
pH	5,5±0,2

Instructions for use:

Lay a light layer of TOP with the special cloth on the surface (previously washed) to be repolished. Let dry (10 minutes almost) and then rub gently with the enclosed steel wool pad.
It is suggested to do a test before use.

Applications on surfaces:

Marble, granite, gres and every natural stone.
Yield: with 1 kg of product can be treated from 30 to 60 m² of not very absorbing material.

Packing:

Kit is composed of: 1 tin of 0,200 kg of product - 1 special cloth for application - 4 rolls of steel wool for polishing

All data indicated in this leaflet are the results of tests and experiments carried out in our laboratories and are to be considered reliable. Because of the many factors which can influence them, the informations here reported do not constitute implicit or formal guarantees. The end user undertakes the responsibility in the usage of the product making sure to experiment the product characteristic as preventive measure.
